

"You have never ever heard music, originally that heavy, performed so gently and with such big heart. Hellsongs is the live act that makes both the teenage punkrocker, your mother's brother-in-law AND your grandparents nod their heads with a smile on their lips!"

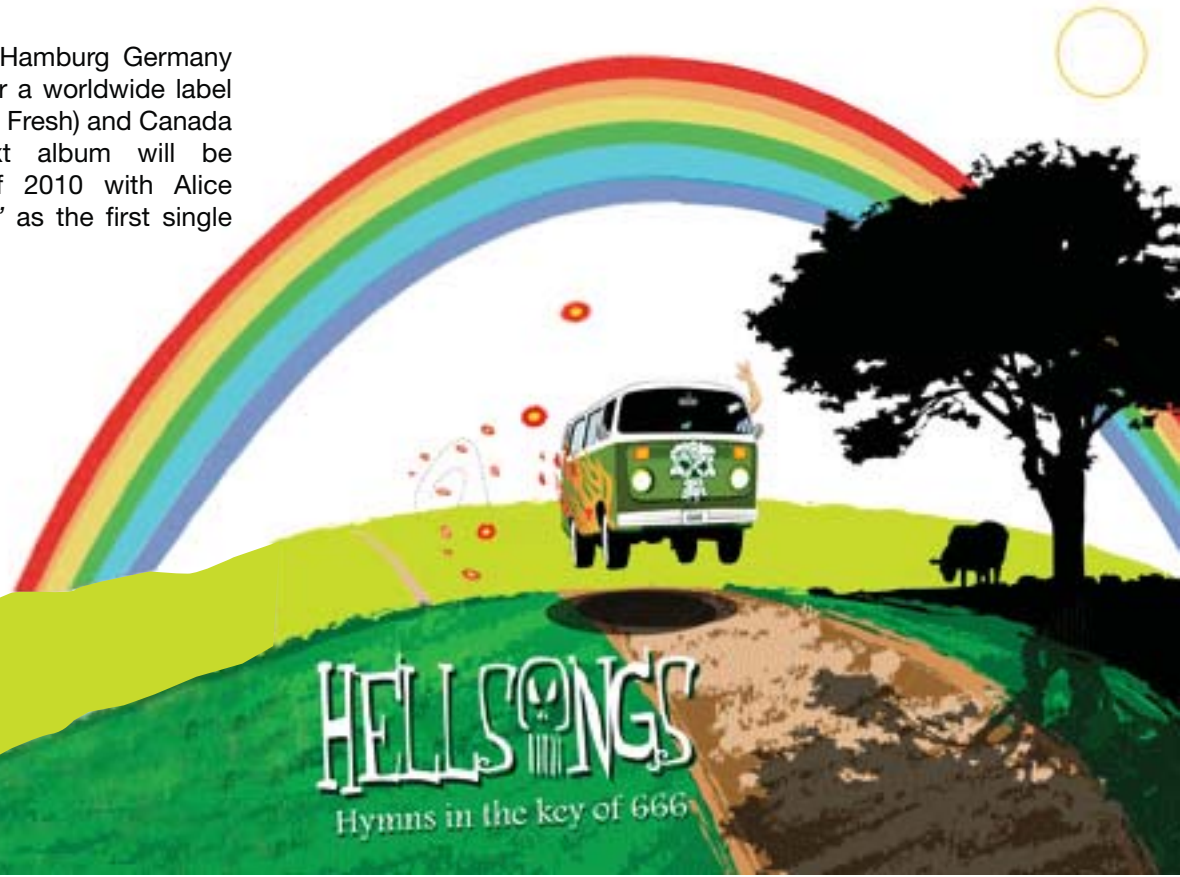

Hellsongs

Hellsongs kick-started their career as a band by playing a gig in a barn in the countryside of Gothenburg, Sweden. The three piece band rehearsed and arranged three songs and got cosmic response from the audience. Encouragement and suggestions of new songs kept coming during the night with the next show lurking around the corner.

Hellsongs is an impressive live act, touring the European countries heavily, adding on North America and Canada as new territories.

Tapete Records out of Hamburg Germany just signed Hellsongs for a worldwide label deal excluding US (Minty Fresh) and Canada (Aporia Records). Next album will be released in the fall of 2010 with Alice Cooper's "School's Out" as the first single already in June.
