The River Phoenix released their debut album "Ritual" in 2008. It was a worldwide release by Nettwerk, produced by Pelle Gunnerfeldt (The Hives, Logh). Since then the five piece band has been touring in Scandinavia, Europe and North America, supporting bands like Smashing Pumpkins and The Stills as well as performing at key music industry festivals like SXSW, CMJ, Canadian Music Week, The Great Escape and by:Larm.

As we speak, The River Phoenix are spending time in the studio back home in Copenhagen working on new songs.

The River Phoenix are looking for international partners to team up with for the next album!

« Like Band Of Horses, Coheed And Cambria and their heroes Dinosaur Jr. jamming together, The River Phoenix are nothing less than mesmerizing. A breath of fresh (and icy) air.»

- Ian Chaddock, Big Cheese Magazine

« This Danish quintet pen the kind of emotively charismatic rock that reminds you of just how potently engaging intelligent music can be. Fuzzy guitars, epic basslines and vocal harmonies with a tendency to slip into gang vocals all add to the feeling of unrestrained innovation.»
